

# FROM PAVEMENT TO PROSPERITY PROGRAM

## STREET YOUTH AND CHILDREN PROJECT OF AFRICAN GROWTH MINISTRIES

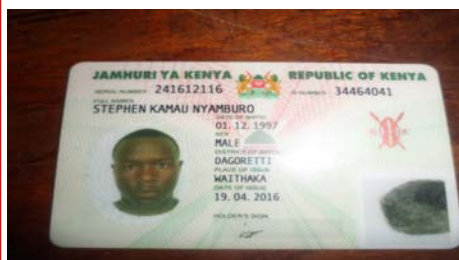

FOUNDING DIRECTOR; REV. GLEN BRUCE. MANAGING DIRECTOR; MR. JIM KIMOTHO

PROJECT MANAGER; MR. DUNCAN KINYUA. Newsletter no 9. JUNE 2016

### RESTORING DIGNITY

What has 8 months brought? 7 boys we had cared and served now they will be living in their communities, having been equipped with the life and work skills. Youth and late teens from the streets, come to our program to begin the journey for dignity restoration and their eyes opened to God's loving intent for their lives.

Amazingly, we were in a position with the help of other stakeholders in our community to successfully enable them acquire National Identity cards. In real sense, it's a document that they could hardly have acquired in their life. It requires serious vetting especially on family background, education background and birth documents which are very hard to get from the teens like the one we support with no family and education background. I.D is an important document here in Kenya that one cannot transact anything without it. It also stands for citizenship. Our boys are happy and proud to have this document that associates them with their country. It will also open more and more opportunities in the society. New youth will be admitted into our "From Pavement To Prosperity Family" Mid July. Thanks to the ongoing support and love to all our supporters.

Thanks God for boys I.Ds'

Stephen, owner of the I.D CARD

### THANK YOU NOTE:

We appreciate all our supporters who donated funds and in kind donations to enable us rehabilitate and transform these young people. Your support is highly appreciated and God bless you mightily. consider helping??

### Development of water project

Last quarter newsletter, we reported about our successful completion of our bore hole. We also indicated that, we need a submissive water pump to enable the project use it effectively and efficiently. As I am writing this article, I am happy to report that we got an interested partner who networked the project with a Christian Organization that is 100% willing to do a comprehensive Water development system on the farm. All due process was done and equipment sourced. We are grateful to all who were practically and prayerfully involved in this process. In due course everything would be finalized and announce God's great gift.

The next group like Juma seeking for enrollment would be happy to use water next intake.

CLINTON BRIAN IS NOW IN A VOCATION TRAINING AFTER REHABILITATION.

My name is Clinton Brian, I'm 16 years old. My parent died when I was very young. I was taken by a good Samaritan who took care of me up to the age of 9 years and later died. I was left with no one to take care of me, I lacked basic needs and life became hard. I found myself starting street life and begging. I was introduced to bad behaviours like sniffing glue & other drugs, pick pocketing among others. I thank God who came to rescue my life through Pavement to Prosperity program. Now I am a changed person. I'm now in a vocation school; acquiring skills in catering. I have a good chance to dream again.

### PROJECT SUSTAINABILITY

We are continuing raising chicken for meat and sell for project sustainability and boys life skill training.

For past quarter we were in a position to raise a substantial number of chickens. Like any other business, we face challenges and successes, opportunities and threats.

In our recent analysis, we pointed out two other income projects that we would like to add to broaden our project sustainability.

1. Now because we have water, we need to develop a comprehensive irrigation farming and a possible green-house farming.
2. Dairy cow farming-We need one milk productive cow, being in an environment where milk is highly marketable.
3. Two car wash machines-It would add value to the boys as they wait for their I.D processing and bring money for their transition time.

If any one would like to support any of the above, we highly appreciate. See contacts below.
